From first glance at the revolutionary design of this 2023 Lazzara LSX 67', there is an undeniable presence about the newest Lazzara model that exudes a powerful sense of modernism.

Sleek, elegant, and confident, the LSX 67' offers a bold new direction for your yachting experience. Notably, the LSX 67' is a perfect blend of contemporary style, intelligent social space, and horsepower waiting to be unleashed on the open sea.

The optional twin Volvo IPS 1350 engines combined with the use of carbon fiber in the hull saves weight resulting in an exhilarating 32 knot speed that compliments her rocket-like silhouette.

The LSX 67' is far more than just beauty, prestige and power. While at anchor, the fold-down cockpit teak patios may be lowered, providing easy access to the water and an expanded lounging area. The open cockpit and transom create a convenient platform for jet-ski or tender storage and launching when desired. Teak steps on both the port and starboard sides lead to a raised deck featuring a variety of seating and sunbathing options. Wide walkways surround the outside of the upper seating area leading to the bow lounge, another haven for sunshine tranquility. Enjoy relaxing on the foredeck sun pad or having an al fresco lunch on the U-shaped seating and the teak pedestal table.
